

I like finding out
about the world.

Apple Geographers are learning...

To explore and respond to different natural phenomena, E.g. weather, minibests.

To understand position through words alone.

To describe a familiar route.

To talk about features of their immediate environment.

To discuss routes and locations, using words like 'in front of' and 'behind'.

To use all their senses in hands-on exploration of natural materials.

To begin to understand the need to respect and care for the natural environment and all living things.

To know that there are different countries in the world and talk about the differences they have experienced or seen in photos.

To develop positive attitudes about the differences between people.
