

I like using my imagination to create art.

Artists are learning...

- To learn about and compare artists.
- To explore, use and refine a variety of artistic effects to express their ideas and feeling.
- To create simple representations of people and objects.
- To draw more detailed pictures of people and objects.
- To create observational drawings.
- To name colours.
- To experiment with mixing colours.
- To use colours for a particular purpose.
- To know which prime colours you mix together to make secondary colours.
- To draw and colour with pencils and crayons.
- To experiment with different mark making tools such as art pencils, pastels, chalk.
- To use natural objects to make a piece of art.
- To manipulate materials.
- To know some similarities and differences between materials.
- To share creations, talk about process and evaluate their work.
- To adapt work where necessary.

At the end of the year Artists can...

Safely use and explore a variety of materials tools and techniques, experimenting with colour, design, texture, form and function.

Share their creations, explaining the process they have used.
