

I like finding out
about the world.

Geographers are learning...

To know about family structures and talk about who is part of their family.
To identify similarities and differences between themselves and peers.
To know the name of the village the school is in.
To know about features of the immediate environment.
To know that there are many countries around the world.
To know that people around the world have different religions.
To know that people in other countries may speak different languages.
To know that simple symbols are used to identify features on a map.

At the end of the year Geographers can...

Describe their immediate environment using knowledge from observation, discussion, stories, nonfiction, texts and maps.
Explain some similarities and differences between life in this country and life in other countries drawing on knowledge from stories, non-fiction texts and (where appropriate) maps.
