Lunch on Thursday

Schools funding from the government for school meals is dependent on the number of meals ordered on Thursday, so we are very keen for the maximum number of orders! Therefore, Thursday there will be a Census Day Fun Taster Menu with the option of brunch or vegetarian brunch with ice cream pot or fruit for dessert. This funding directly benefits all pupils so the more funding we receive will mean improved provision for teaching and learning. Reception, Year 1 and Year 2 pupils are all eligible for Universal Infant Free School Meals so we would be very grateful if these pupils at least try a meal on this day. (A packed lunch can also be brought from home if you prefer as a backup!) As there has been a change to the menu you will need to rebook your child's meal for this day. Sorry for any inconvenience this causes.

SATs Week Complete!

What a week it has been for our amazing Year 6 pupils.

From early morning breakfasts to the final paper today, the children have shown perseverance, kindness and fantastic attitudes throughout. We could not be prouder of the way they approached the week.

A huge thank you as well to our staff and families for all of the encouragement, support and reassurance given throughout the year and especially over the past few weeks.

Now it's time for Year 6 to celebrate and enjoy the rest of their final term at primary school.

Water Safety

Years 3 and 4 enjoyed their water safety lesson at St Sidwell's Point. They developed their basic water safety awareness and learnt about different survival techniques. The experience of wearing pyjamas enabled the children to learn how to perform the survival techniques if they fall into water unexpectedly.

Yoga Club

There is no Yoga Club next week. We hope the children have enjoyed their sessions this half term.

Big Walk and Wheel Results

Recently we participated in the Big Walk and Wheel challenge. During the challenge, schools across the UK competed to see who could record the greatest number of pupils and families walking, scooting or cycling to school.

Overall, we came 44th on the regional leader board and 1st in Exeter for our category which is fantastic! Well, done everyone! It has been brilliant to see more bikes and scooters in school this term. We hope you continue to enjoy your active journeys.

Sports Day

National School Sports Week is back! The YST National School Sport Week is taking place during the week of 6th – 12th July.

This year, we are very excited to be celebrating this a week earlier in the week beginning 29th June because of transition days the following week. Throughout our sports week, all classes will be participating in a variety of different sports, and we have invited different sports clubs in to deliver taster sessions.

As part of our sports week, we will also be having our annual sports day. Our sports day for all classes will be on the morning of Tuesday 30th June and will be followed by a picnic on the field which families are welcome to attend. There will be not hot meals on Sports Day, however, school packed lunches are available to order via School Gateway. These must be ordered by Thursday 25th June. If you had already pre ordered a meal for the 30th June, you will need to reorder.

Breakfast and After School Club

Please ensure that you book your child onto Breakfast and After School Club in advance. If you cannot book via School Gateway, please call the school office as this may mean that the club is already full and you will need to make alternative arrangements.

We would like to remind all parents who use breakfast club not to park in the school car park. Thank you for your cooperation.

Willow class had an amazing time on Tuesday meeting lots of animals with [Animals2usouthwest](#) linking with their learning about different animal families and skeletal structures.

Jay's Aim Sponsored Swim

In July, Mrs Osborne will be taking part in a sponsored swim around Burgh Island to raise money for Jay's Aim - a charity that is very close to her family's heart and who have also supported our school in the past.

Jay's Aim does incredible work providing defibrillators, CPR/AED training and heart screenings in local communities. So far, the charity has:

- Trained nearly 30,000 people in CPR
- Provided 273 defibrillators
- Funded 360 cardiac screenings

This cause is especially personal to Mrs Osborne as the charity was started following her brother-in-law's death and because her son, Jack, has also inherited the same gene mutation as Jay and is likely to develop the same condition in the future.

If you would like to support this amazing charity, any donation - big or small - would be hugely appreciated.
